PROFESSIONAL EXPERIENCE / RIWI PROJECTS

POWER PLATFORM DEVELOPER INTERN

PROCAPS S.A. - (June 2025 - December 2025)

Developed the Integrated Backup Operations Center (CIOB), an enterprise solution built in Power Apps and connected to Microsoft 365 services. The platform centralizes the management of magnetic tapes, security seals, inventory movements, and operational records for the IT infrastructure team.

Key Achievements / Learnings

- Built 29+ Power Apps screens with advanced navigation, validations, filters, and business logic.
- Integrated a Copilot Studio virtual agent with 57 Power Automate flows for business queries and updates.
- Managed 8+ SharePoint lists and delivered role-based access, automated error handling, and an integrated Power BI dashboard.

Tech stack: Power Apps, Power Automate, Power BI, SharePoint, Copilot Studio

Tools: Microsoft 365, GitHub

IT SUPPORT TECHNICIAN

Electrochip - (July 2023 - January 2024)

Provided preventive and corrective maintenance for computers and other hardware, installed operating systems and software, and supported equipment setup, configuration, and troubleshooting.

Key Achievements / Learnings

- Diagnosed and resolved hardware and software issues for desktop and laptop computers.
- Performed operating system installation, software configuration, preventive maintenance, and final equipment verification.

Tech stack: Windows, computer hardware, operating systems

Tools: Hardware diagnostic, installation, and maintenance tools
